Message from the Collection Editor

Dear Colleagues,

The Special Issue: "The Retina in Health and Disease" was a great success and has led to a first volume (https://www.mdpi.com/journal/cells/special_issues/Retina_Disease) that was recently published and has free access. I am pleased to announce that we have launched a new Topical Collection with the same name "Retina in Health and Disease" and I will be serving as Collection Editor for this issue.

Given the depth of your expertise in this field, I would like to cordially invite you to contribute an article to the Collection. For more information on the issue, please visit the Special Issue website at https://www.mdpi.com/journal/cells/special_issues/Retina. Click the 'Submit to Topical Collection' on the left side to submit your paper.

Papers may be submitted from now, as papers will be published on an ongoing basis. Submitted papers should not be under consideration for publication elsewhere. We also encourage authors to send a short abstract or tentative title to the Editorial Office in advance (sybil.miao@mdpi.com).

We look forward to our future continued collaboration.
